AHETEMS EDUCATOR OF THE YEAR AWARD

The Society of Hispanic Professional Engineers and the Advancing Hispanic Excellence in Technology, Engineering, Math, and Science, Inc. (AHETEMS) Foundation have established a competitive award to recognize the exemplary contributions made by administrators and faculty to improving the learning environment for Hispanic students in K-12 and higher education.

Two awards are presented as a competitive \$5,000 Faculty Teaching Grant¹ to be used in the development of cultural and social capital of Hispanic students. One award is presented to a college/university faculty or administrator, who has demonstrated a concerted effort to increase the persistence rate of Hispanic students in the STEM disciplines. Another award is presented to a K-12 math or science teacher, who has demonstrated a selfless desire to improve the academic and social consciousness of Hispanic students through the balanced use of innovative teaching techniques, cultural-cognizant mentorship, and leadership integrity.

The awards are presented at the SHPE National Conference, which will be held October 27 – 31, 2010 in Cincinnati, OH. The award will provide the recipient with two (2) complementary conference registrations, which includes three (3) hotel nights and two (2) Gala guest tickets.
